

## Amyloporia xantha

## Gelbe Braunfäuletramete

Fungi, Dikarya, Basidiomycota, Agaricomycotina, Agaricomycetes, Polyporales, Polyporaceae, Amyloporia

Legitimate (Fr.) Bondartsev & Singer 1953  
ex Bondartsev

Aktueller Name gem. MycoDB: Amyloporia xantha (Fr.) Bondartsev &amp; Singer ex Bondartsev, The Polyporaceae of the European USSR and Caucasia: 153 (1953) [MB292520]

Basionym: Polyporus xanthus Fr., Observationes mycologicae 1: 128 (1815) [MB449602]

Obligate Synonyme:

Poria xantha (Fr.) Cooke, Grevillea 14 (72): 112 (1886) [MB230594]

Antrodia xantha (Fr.) Ryvar den, Norwegian Journal of Botany 20 (1): 8 (1973) [MB308787]

Daedalea xantha (Fr.) A. Roy &amp; A.B. De, Mycotaxon 61: 421 (1997) [MB436505]

Physisporus xanthus (Fr.) P. Karst., Bidrag till Kännedom av Finlands Natur och Folk 37: 58 (1882) [MB472346]

Taxonomische Synonyme:

Poria greschikii Bres., Annales Mycologici 18 (1-3): 38 (1920) [MB231209]

Chaetoporellus greschikii (Bres.) Bondartsev &amp; Singer ex Bondartsev, The Polyporaceae of the European USSR and Caucasia: 168 (1953) [MB294720]

Polyporus sulphurellus Peck, Annual Report on the New York State Museum of Natural History 42: 123 (1889) [MB472870]

Poria sulphurella (Peck) Sacc., Sylloge Fungorum 9: 190 (1891) [MB171042]

Polyporus flavus P. Karst., Sydvestra Finlands Polyporeer: 40 (1859) [MB362390]

Amyloporiella flava A. David &amp; Tortic, Transactions of the British Mycological Society 83 (4): 662 (1984) [MB105916]

Polyporus selectus P. Karst., Not. Sällsk. Fauna Flora fenn. Förh.: 360 (1868) [MB451050]

Antrodia flava (P. Karst.) Teixeira, Revista Brasileira de Botânica 15 (2): 125 (1992) [MB357798]

Poria selecta (P. Karst.) Rodway &amp; Cleland, Pap. &amp; Proc. Roy. Soc. Tasmania 1930: 15 (1930) [MB454807]

Poria selecta var. selecta (?) [MB455196]

Physisporus vulgaris var. flavus P. Karst., L. Rabenhorstii fungi Europaei et extraeuropaei exsiccati, Klotzschii herbarii vivi mycologici continuatio.

Editio nova. Series secunda Cent. 28: no. 2728 (1882) [MB842598]

Poria suaveolens Bagl. &amp; Razzore, Anns Soc. bot. Lyon: 17 (1911) [MB174890]

Physisporus flavus P. Karst., Sydvestra Finlands Polyporeer: 40 (1859) [MB444236]

Poria selectus (P. Karst.) Rodway &amp; Cleland (1930) [MB187929]

Polyporus sulphurella Peck (1889) [MB229062]

makroskopisch

Pileat, resupinat, reihig

**Fruchtkörper / Habitus / Wachstumsform**

Resupinat, weich, stark rissig wenn trocken, grossflächig

chemisch

**Melzers-Reagenz**

Starke amyloide Reaktion

**Gattung/en:**

Amyloporia
