

Hygrocybe acutoconica

Spitzgebuckelter Saftling

Fungi, Dikarya, Basidiomycota, Agaricomycotina, Agaricomycetes, Agaricomycetidae, Agaricales, Hygrophoraceae, Hygrocybe

Legitimate

(Clem.) Singer 1951

Aktueller Name gem. MycoDB: Hygrocybe acutoconica (Clem.) Singer, Lilloa 22: 153 (1951) [MB298654]

Basionym: Mycena acutoconica Clem., Botanical Survey of Nebraska 2: 38 (1893) [MB218389]

Obligate Synonyme:

Hygrophorus acutoconicus (Clem.) A.H. Sm., North American species of Mycena: 472 (1947) [MB287114]

Prunulus acutoconicus (Clem.) Murrill, North American Flora 9 (5): 330 (1916) [MB503466]

Taxonomische Synonyme:

Hygrocybe constans J.E. Lange, Dansk botanisk Arkiv 4 (4): 23 (1923) [MB261816]

Hygrocybe langei Kühner, Le Botaniste 18: 174 (1927) [MB372997]

Hygrophorus constans (J.E. Lange) anon. ined. (1940) [MB463306]

Hygrophorus rickenii Maire, Bulletin de la Société Mycologique de France 46: 220 (1930) [MB276540]

Hygrocybe aurantiolutescens P.D. Orton, Notes from the Royal Botanical Garden Edinburgh 29 (1): 103 (1969) [MB332157]

Hygrophorus aurantiolutescens (P.D. Orton) Dennis, Fungi of the Hebrides: 47 (1986) [MB114840]

Hygrocybe acutoconica var. aurantiolutescens (P.D. Orton) Migl. & Camboni, Micologia Italiana: 36 (2001) [MB483732]

Hygrocybe persistens var. persistens, Revue de Mycologie (Paris) 5: 8 (1940) [MB418772]

Hygrophorus conicus var. persistens Britzelm., Berichte des Naturwissenschaftlichen Vereins Schwaben Neuburg 30: 30 (1890) [MB462549]

Hygrocybe persistens (Britzelm.) Singer, Revue de Mycologie (Paris) 5: 8 (1940) [MB355874]

Hygrophorus persistens (Britzelm.) Britzelm., Berichte des Naturwissenschaftlichen Vereins Schwaben Neuburg 30: 30 (1893) [MB186734]

Hydrocybe subrubra Murrill (1939) [MB254946]

Hydrocybe californica Murrill (1916) [MB188802]

Hygrocybe californica Murrill, North American Flora 9 (6): 382 (1916) [MB546420]

Hygrophorus californicus (Murrill) Sacc. & Trotter, Sylloge Fungorum 23: 122 (1925) [MB215370]

Hygrophorus californicus (Murrill) Murrill, Mycologia 9 (1): 40 (1917) [MB517709]

Hygrocybe subrubra Murrill, Bulletin of the Torrey Botanical Club 66: 159 (1939) [MB546431]

Hygrophorus subrubus (Murrill) Murrill, Bulletin of the Torrey Botanical Club 66: 160 (1939) [MB254945]

Mycena acuto-conica Clem. (1893) [MB581797]

makroskopisch

Fruchtkörperfarbe / Farbspektrum

Orangerot

Stielmerkmale

Schleimig

mikroskopisch

Sporenmasse

10-14 x 7-8 µm - auffallendes Merkmal: grosse, zylindrische Sporen

Varia

Synonyme, Namen dt., Verweis

Hygrocybe acutoconica

Gattung/en:

Hygrocybe
