

Lentinellus micheneri

Genabelter Zählerling

Fungi, Dikarya, Basidiomycota, Agaricomycotina, Agaricomycetes, Russulales, Auriscalpiaceae

Legitimate (Berk. & M.A. Curtis) 1984
Pegler

Aktueller Name gem. MycoDB: Lentinellus micheneri (Berk. & M.A. Curtis) Pegler, Kew Bulletin Additional Series 10: 245 (1984) [MB106976]

Basionym: Lentinus micheneri Berk. & M.A. Curtis, Annals and Magazine of Natural History 12: 427 (1853) [MB164940]

Obligate Synonyme:

Pocillaria micheneri (Berk. & M.A. Curtis) Kuntze, Revisio generum plantarum 2: 866 (1891) [MB470660]

Lentinellus flabelliformis var. micheneri (Berk. & M.A. Curtis) P.A. Moreau, Bulletin de la Société Mycologique de France 115: 301 (1999) [MB459923]

Lentinellus micheneri (Berk. & M.A. Curtis) Pegler (1983) [MB457554]

Taxonomische Synonyme:

Lentinellus bisus (Quél.) Kühner & Maire, Bulletin de la Société Mycologique de France 50: 16 (1934) [MB251015]

Lentinus bisus Quél. (1881) [MB520945]

Lentinus americanus Peck, Bulletin of the Torrey Botanical Club 29: 72 (1902) [MB242175]

Lentinellus americanus (Peck) Singer, Lilloa 22: 245 (1951) [MB299442]

Lentinus umbilicatus Peck, Annual Report on the New York State Museum of Natural History 28: 51 (1876) [MB156231]

Lentinellus umbilicatus (Peck) Singer, Lilloa 22: 245 (1951) [MB299446]

Pocillaria umbilicata (Peck) Kuntze, Revisio generum plantarum 2: 866 (1891) [MB470764]

Pocillaria bisa (Quél.) Kuntze (1891) [MB470528]

Lentinus cochleatus subsp. omphalodes Fr., Monographia Hymenomycetum Sueciae 2: 235 (1863) [MB493702]

Lentinellus omphalodes (Fr.) P. Karst., Bidrag till Kännedom av Finlands Natur och Folk 32: 248 (1879) [MB438592]

Pocillaria omphalodes (Fr.) Kuntze, Revisio generum plantarum 2: 866 (1891) [MB470677]

Lentinus omphalodes (Fr.) Fr., Hymenomycetes europaei: 482 (1874) [MB159042]

Lentinus dentatus var. bisus (Quél.) Quél. (1886) [MB494078]

Lentinus bissus Quél., Fungi Tridentini 1 (1): 12, t. 12 (1881) [MB356490]

Lentinellus bissus (Quél.) Kühner & Maire, Bulletin de la Société Mycologique de France 50: 16 (1934) [MB352694]

Lentinus dentatus var. bissus (Quél.) Quél., Enchiridion Fungorum in Europa media et praesertim in Gallia Vigentium: 176 (1886) [MB352725]

Pocillaria bissa (Quél.) Kuntze, Revisio generum plantarum 2: 865 (1891) [MB536379]

Lentinus micheneri Berk. & M.A. Curtis (1853) [MB457596]

In Frage kommende Arten:

Lentinellus ursinus

Lentinellus micheneri

Irritierend an diesem Fund sind die inkrustierten ChZ.

makroskopisch

Substrat

Wahrscheinlich Fagus

mikroskopisch

Sporenform

Subglobos

Sporenmembran, Oberfläche, Skulptur

Feinwarzig

Cheilozystiden

Inkrustiert

Gattung/en:
