

Loweomyces wynneae

Starkkriechender Saftporling

Fungi, Dikarya, Basidiomycota, Agaricomycotina, Agaricomycetes, Polyporales, Meripilaceae

Legitimate (Berk. & Broome) Jülich 1982

Aktueller Name gem. MycoDB: Loweomyces wynneae (Berk. & Broome) Jülich, Persoonia 11 (4): 424 (1982) [MB534169]

Basionym: Polyporus wynneae Berk. & Broome, Annals and Magazine of Natural History 3: 359 (1859) [MB534167]

Obligate Synonyme:

Tyromyces wynneae (Berk. & Broome) Donk, Mededelingen van het botanisch Museum en Herbarium van de Rijksuniversiteit Utrecht 9: 156 (1933) [MB534172]

Abortiporus wynneae (Berk. & Broome) Rauschert, Haussknechtia 4: 51 (1988) [MB534178]

Antrodiella wynneae (Berk. & Broome) Spirin, Mycena 1 (1): 70 (2001) [MB534177]

Fibroporia wynneae (Berk. & Broome) Bondartseva, Mikologiya i Fitopatologiya: 280 (1983) [MB534175]

Fibroporia wynneae (Berk. & Broome) Bondartseva, Novosti Sistematiiki Nizshikh Rastenii 9: 136 (1972) [MB534176]

Leptoporus wynneae (Berk. & Broome) Quéf., Flore mycologique de la France et des pays limitrophes: 385 (1888) [MB534171]

Microporus wynneae (Berk. & Broome) Kuntze: 497 (1898) [MB534170]

Fibuloporia wynneae (Berk. & Broome) Bondartsev & Singer ex Bondartsev, The Polyporaceae of the European USSR and Caucasia: 125 (1953) [MB534174]

Polystictus wynneae (Berk. & Broome) Cooke, Grevillea 14 (71): 84 (1886) [MB534168]

Heteroporus wynneae (Berk. & Broome) A. David, Bulletin Mensuel de la Société Linnéenne de Lyon 49 (1): 43 (1980) [MB534173]

Leptoporus fragilis var. wynneae (Berk. & Broome) Quéf., Comptes Rendus de l'Association Française pour l'Avancement des Sciences 16 (2): 588 (1888) [MB543786]

Taxonomische Synonyme:

Tyromyces wynnei (Berk. & Broome) Donk (1933) [MB282158]

Abortiporus wynnei (Berk. & Broome) Rauschert (1988) [MB135233]

Leptoporus wynnei (Berk. & Broome) Quéf. (1888) [MB355701]

Fibuloporia wynnei (Berk. & Broome) Bondartsev & Singer ex Bondartsev (1953) [MB297453]

Heteroporus wynnei (Berk. & Broome) A. David (1980) [MB113792]

Loweomyces wynnei (Berk. & Broome) Jülich (1982) [MB110788]

Fibroporia wynnei (Berk. & Broome) Bondartseva (1983) [MB110322]

Fibroporia wynnei (Berk. & Broome) Bondartseva (1972) [MB491519]

Polyporus wynnei Berk. & Broome (1859) [MB374317]

Polystictus wynnei (Berk. & Broome) Cooke, Grevillea 14 (71): 84 (1886) [MB188442]

Microporus wynnei (Berk. & Broome) Kuntze (1898) [MB470335]

Antrodiella wynnei (Berk. & Broome) Spirin (2001) [MB466355]

Leptoporus fragilis var. wynnei (Berk. & Broome) Quéf. (1888) [MB507789]

olfaktorisch / organoleptisch

Geruch / Geruchsprofil

Unangenehm chemisch

Gattung/en:

Loweomyces
