

## Polyporus alveolaris

## Waben-Stielporling, Bienenwabenporling

Fungi, Dikarya, Basidiomycota, Agaricomycotina, Agaricomycetes, Polyporales, Polyporaceae

Legitimate (DC.) Bondartsev &amp; Singer 1941

Aktueller Name gem. MycoDB: Polyporus alveolaris (DC.) Bondartsev &amp; Singer, Ann. Mycol. 39 (1): 58 (1941) [MB304136]

Basionym: Merulius alveolaris DC., Flore française 6: 43 (1815) [MB229977]

Obligate Synonyme:

Favolus alveolaris (DC.) Quél., Comptes Rendus de l'Association Française pour l'Avancement des Sciences 11: 399 (1883) [MB521230]

Favolus europaeus Fr., Epicrisis Systematis Mycologici: 498 (1838) [MB225936]

Cantharellus alveolaris (DC.) Fr., Systema Mycologicum 1: 322 (1821) [MB439712]

Polyporellus alveolaris (DC.) Pilát, Beihefte zum Botanischen Centralblatt 56: 36 (1936) [MB473957]

Hexagonia alveolaris (DC.) Murrill, Bulletin of the Torrey Botanical Club 31 (6): 327 (1904) [MB469453]

Favolus extratropicus Fr., Systema Orbis Vegetabilis 1: 76 (1825) [MB465886]

Neofavolus alveolaris (DC.) Sotome &amp; T. Hatt., Fungal Diversity 58 (1): 250 (2012) [MB801928]

Neofavolus alveolaris (DC.) Sotome &amp; T. Hatt., Index Fungorum 313: 1 (2016) [MB551613]

Taxonomische Synonyme:

Favolus canadensis Klotzsch, Linnaea 7: 197 (1832) [MB184678]

Hexagonia mori Pollini, Giornale di Fisica Chimica Storia Naturale Medicina ed Arti 9: 184 (1816) [MB147685]

Polyporus mori (Pollini) Fr., Systema Mycologicum 1: 344 (1821) [MB445721]

Boletus mori (Pollini) Pollini, Giorn. Fis. Chim. Stor. nat. Med. Arti Pavia: 35 (1816) [MB468304]

Favolus mori (Pollini) Fr., Systema Orbis Vegetabilis 1: 76 (1825) [MB469168]

Daedalea broussonetiae Cappelli, Catalogus stirpium quae aluntur in regio Horto botanico Taurinensi: 63-67 (1821) [MB191244]

Polyporus favoloides Doass. &amp; Pat., Bulletin de la Société Botanique de France 27: 355 (1880) [MB222251]

Favolus kauffmanii Lloyd, Mycological Writings 5 (44): 614 (1916) [MB469165]

Hexagonia micropora Murrill, Bulletin of the Torrey Botanical Club 31 (6): 328 (1904) [MB190912]

Favolus microporus (Murrill) Sacc. &amp; D. Sacc., Sylloge Fungorum 17: 143 (1905) [MB535092]

Favolus ohioensis Mont., Sylloge generum specierumque plantarum cryptogamarum: 171 (1856) [MB248706]

Favolus peponinus Lloyd, Mycol. Writ. 5 (Letter 66): 16 (1917) [MB469170]

Polyporus tenuiparies Laferr. &amp; Gilb., Mycotaxon 37: 331 (1990) [MB127391]

Favolus whetstonei Lloyd, Mycological Writings 5 (44): 615 (1916) [MB247606]

Favolus striatulus Ellis &amp; Everh., The American Naturalist 31: 339 (1897) [MB235810]

Hexagonia striatula (Ellis &amp; Everh.) Murrill, North American Flora 9 (1): 48 (1907) [MB469468]

Favolus microsporoides (Murrill) Sacc. &amp; D. Sacc. (1905) [MB473831]

makroskopisch

**Fruchtkörper / Habitus / Wachstumsform**

Junge Fruchtkörper Oberfläche oft dunkelbraun, reifere Fruchtkörper mit orange-braunen Farben

**Poren, Porenform**

Polygonal, langgestreckte Poren

botanisch / ökologisch

**Vorkommen / Häufigkeit / Saison**

Frühjahr

Varia

**Bestimmt als**

Polyporus mori

**Gattung/en:**

Polyporus
