

## Pycnoporus sanguineus cf

## Zinnoberrote Tramete

Fungi, Dikarya, Basidiomycota, Agaricomycotina, Agaricomycetes, Polyporales, Polyporaceae

Legitimate

(L.) Murrill 1904

Aktueller Name gem. MycoDB: Pycnoporus sanguineus (L.) Murrill, Bull. Torrey Bot. Club 31 (8): 421 (1904) [MB121361]

Basionym: Boletus sanguineus L., Species Plantarum: 1646 (1763) [MB202378]

Obligate Synonyme:

Polystictus sanguineus (L.) Fr., Nova Acta Regiae Societatis Scientiarum Upsaliensis Ser. 3, 1: 75 (1851) [MB220585]

Coriolus sanguineus (L.) G. Cunn., Bulletin of the New Zealand Department of Scientific and Industrial Research, Plant Diseases Division 81: 17 (1949) [MB285623]

Boletus nitens Batsch, Elenchus fungorum: 109 (1783) [MB228094]

Microporus sanguineus (L.) Kuntze, Revisio generum plantarum 3 (3): 497 (1898) [MB102286]

Polyporus sanguineus (L.) G. Mey., Primitiae Florae Essequiboensis: 304 (1818) [MB375282]

Trametes sanguinea (L.) Lloyd, Mycological Writings 7 (72): 1291 (1924) [MB473624]

Trametes cinnabarina var. sanguinea (L.) Pilát, Atlas Champ. Eur., Polypor., B, 1: 319 (1940) [MB347649]

Fabisporus sanguineus (L.) Zmitr., Mycena 1 (1): 93 (2001) [MB466385]

Trametes sanguinea (L.) Imazeki, Bulletin of the Tokyo Science Museum 6: 73 (1943) [MB306973]

Taxonomische Synonyme:

Polyporus cristula Klotzsch ex Berk., Annals and Magazine of Natural History 3: 387 (1839) [MB120056]

Polystictus cinnabarinus subsp. cristula (Klotzsch ex Berk.) Sacc., Sylloge Fungorum 6: 245 (1888) [MB166340]

Boletus ruber Lam., Encyclopédie Méthodique, Botanique 1-1: 50 (1783) [MB233132]

Fund in subtropischem Wald in Südamerika

makroskopisch

**Fruchtkörperfarbe / Farbspektrum**

Leuchtend orange-rot

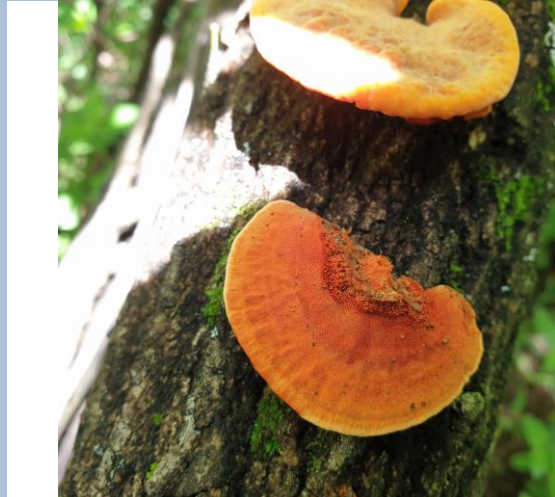

**Gattung/en:**Pycnoporus <https://www.mycopedia.ch/pilze/3918.htm>**Siehe auch**Pycnoporus cinnabarinus <https://www.mycopedia.ch/pilze/4448.htm>
